**THE NEW EXPLORERS PROGRAM:** Each unit consists of a 30 minute video tape and teachers guide. Source: Produced by Argonne National Laboratory and WTTW T.V. station in Chicago under the sponsorship of U.S. Department of Energy.

1. A Twentieth Century Medicine Man: A botanist living among Brazilian Indians seeks ancient medical cures for modern cancer treatment. Grades 4-8
2. Mystery of the Lines: Astronomers explore the mystery of giant figures drawn in the Peruvian desert thousands of years ago. Grades 4-12
3. Flight for Survival: A scientist engineering the bald eagle's comeback from near extinction uses a treetop eagle's nest as his lab. Grades 4-8
4. The Laser's Edge: A surgeon probes deep into the human brain with a laser beam to destroy and remove tumors. Grades 7-12
5. Profile in Terror: A criminologist taps high technology to help FBI solve some of the most horrible crimes in recent history. Grades 6-10
6. Why is the Dolphin Smiling?: A marine scientist explores the dolphin's profound intelligence and unique ability to communicate. Grades 4-6
7. Crisis: Planet Earth: NASA scientists measure the temperature of skyscrapers, streets and trees to find out how the world is heating up. Grades 7-9
8. Islands in the Jungle: An ornithologist discovers a new bird species in the cloud forests of mountains rising out of the Amazon jungle. Grades 4-8
9. Mystery Through the Lens: A scientist using a simple microscope solves mysteries that have long stumped the scientific community. Grades 7-12
10. Into the Depths: Scientist descending to the bottom of Lake Superior measure its pollution and ability to clean itself. Grades 6-8
11. From Beneath the Ashes: The chief of research at Yellowstone National Park points to striking new signs of life in forest devastated by fires in 1988. Grades 6-9
12. In a Galaxy Far, Far Away: A computer whiz who produces fantastic special effects for movies applies his genius to medical technology. Grades 6-12
13. Miracle Babies: A doctor and a high-tech machine are allied to save a newborn rushed to the hospital from 400 miles away. Grades 2-6
